

A Fish Story

March 7, 2001

By Ralph Hall

The members of the Shrine Club Of Southeastern Massachusetts toured the Greater New Bedford Vocational School's "fish farm project" at the school. Later in the year the club has been invited to lunch at the school to try the fish raised in the school tanks.

Business meetings of the Shrine Club Of Southeastern Massachusetts are held on the first Wednesday of the month at noon. Before the meeting area trips are planned to places of interest. Places you pass every day but never see inside. Creating new interest increases the attendance for this active Club.

For more information about the Shriners, call 508-999-1938.
